Student Body Commission Attends Conference

The Student Commission, with Miss Handley as advisor, attended the N.C.J.C.S.G. Conference which was held at the Sacramento Junior College, last Thursday.

School administration was one of the main topics on the program. Its purpose was to find out, by discussions and viewpoints of other student commissions, ideas and procedures that may improve our system of school government.

The members of the Hartnell Commission who participated in this event were Dick Eppley, Doris Simon, Angie Lavorato, Linda Lawrence, Troy George, Cloyse Little, Karol Klauer, Esther Williams, and Arlene Olson. The group traveled in Miss Handley's car and the Hartnell station wagon.

Reports from the various members who attended the meeting indicated that the conference was very successful and beneficial to all.

Alumni Group Lists Officers

During the Homecoming week end the new Hartnell Alumni Association officers for the coming year were elected.

Don Lumsden was elected president; Norman Nuck is vice-president; Joaquin Market is secretary-treasurer; and the corresponding secretary is Lee Yancey. The new president will select his own board of directors in the near future.

The president pointed out that the alumni have in the past few years carried on a magazine project which puts on a drive for Christmas subscriptions. **If anyone is interested in taking out or renewing orders for these subscriptions, they should contact the office.**

New Sophomore Representative

A new sophomore representative, Harry Penoh, was appointed last week by the student commission.

Harry is from Liberia and it was thought that it might aid him in his understanding of business administration in a college, so that when he goes back to Liberia it will build up better relations.

The duties of the representative are few but important. He shall represent the interests of the sophomore class in business of the Associated Students.

Sophs Pics Taken On Campus For First Time

Something new has been added in yearbook procedure this year: the sophomore pictures were taken at Hartnell College by professional photographer Hurl Swartz.

Over 134 sophomore students took advantage of this unique opportunity.

Don Eckerson, sophomore picture editor was high in his praise for this new system and the cooperation of both students and photographer.

Girls had their pictures taken wearing dark sweaters and pearls, and drapes. The sweater pictures will be used in the year book.

All male students had their pictures taken wearing white shirts, sport coats and ties.

Any sophomore student who missed his appointment must make an appointment with the photographer and have his picture taken by November 1, 1953.

Proofs of the photos may be picked up from the studio at the student's convenience, this week.

Student Union Shaping Up

The student body commission, faculty members, and under-graduates have devoted much time and effort in assembling the necessary data for the tentative sketch for our Student Union.

This outline, will be submitted to the District Board for final approval. When approved, the first plans will then be drawn up. The new building proper will cover approximately 8000 square feet.

At the moment, no architect has been decided upon. This will be determined when the first basic plans are considered. President Lemos stated, when interviewed that the date for breaking ground for the structure has not been authoritatively decided upon as yet, and no date can be quoted until plans have been approved and accepted.

The Panther Sentinel will continue to report further progress as it occurs.

Doris Simon New SB Veep

Doris Simon was recently appointed vice-president of the Associated Students to succeed Dave Lewis, who left school and is presently attending Golden Gate College in San Francisco.

Doris, who was sophomore class representative, has already assumed the full responsibilities of her new office.

Her duties consist mainly of those of parliamentarian. She attends all meetings and conferences, takes the place of the president when he is absent, and heads various committees during the school year.

Doris is also the co-editor of La Reata, and is active in many student activities.

New Buses For College Runs

Expected to arrive soon are two new Crown buses for the Morgan Hill and King City runs. Unlike the other buses, with the exception of Bus Number 26, the new buses will have Hartnell College painted on the side of them.

These buses are reportedly not to be used for short runs, but for long runs only. They have a Hall-Scott engine, putting out 240 to 260 horsepower. The engine is mounted in the center of the crown-type frame. The seats are said to be softer and more comfortable than on previous buses, and much easier on the students.

"Fortnight" Plugs Hartnell College

Fortnight magazine for the second straight issue mentioned Hartnell College. Jim Scott, author of the recent best seller on the life of Bob Mathias, in his "State Sports Roundup" gave the Panther football team several plugs.

Mr. Scott has also featured Hartnell College in his "Scott's Sport Shop" which is run daily in the Berkeley Gazette, Hayward Review and other East Bay papers.

Journalism students are planning to invite Mr. Scott, and Californian sports chief Doug Baldwin, to a special spring newspaper clinic. Other outstanding writers will be invited as plans develop.

"Curious Savage" Opens . . .

Trophy To Be Presented Today

For the first time in Hartnell College's athletic history, the 1953 Hartnell College baseball team, coached by Mr. Jess Regli, walked away with the Championship.

For that, and many other fine services rendered by Mr. Regli, the 1953 team is awarding him with the Baseball Championship trophy. The trophy will be presented at the regular Friday assembly by the team representative, Ray Shields.

What to Do

By BILL STEVENSON

In case of fire, earthquake, or bombing alert, students should follow the prescribed rules:

For Fires: the fire signal is, bells or claxon horns, 2-3 signal.

What to do: Leave the building quietly, orderly and promptly. Stay more than 50 feet away from building. Follow the faculty directions.

For Earthquake: The signal is, violent jarring or shaking of building.

What to do: Stand with face against walls away from windows or get under tables. Remain in this position. Follow faculty directions.

For Bombing Alert: The signal is, Step 1 - One long bell or claxon horn blast (one minute). Instructions by Faculty. Step 2 - Second long bell or claxon horn. Leave building quietly, orderly. Go to assigned areas. Step 3 - Series of short bells or horn blasts or one long bell or horn blast. Evacuate or return to classes.

Newman Club Sponsors Next Postgame Dance

The Newman Club is sponsoring the Black Cat Crawl after the Napa game tonight in the Men's Gym.

The prices are set at 50 cents for stags and 75 cents for couples with student body cards; 75 cents for stags and $1.00 for couples without student body cards.

The committee chairmen are: general chairman, August Schmidt; refreshments, Joan Hicks; music, August Schmidt; publicity, Eugene Morgan; finance, Dave Brazil; decorations, August Schmidt.

The chaperons are Miss Perry and Father Cummings.

First Play Of Year For College Community Show

John Patrick's outstanding comedy-drama "The Curious Savage" is winding up final rehearsals at the Hartnell Little Theatre and will open for a three night stand beginning Thursday, November 5.

The College-Community Theatre production, under the direction of Mr. Hal Ulrici, will feature former Hartnell student Gloria Scroggs in the featured role of Mrs. Ethel Savage. The selection of Miss Scroggs for the leading role in this comedy-drama is based on her outstanding performances in previous productions at the Hartnell Little Theatre.

Salinas Little Theatre fans may well remember Miss Scroggs for her brilliant performances in the Hartnell Players' production "Angel Street" and "Years Ago." Her role of Mrs. Manningheim in "Angel Street" and Me in "Years Ago." stamped her as a very versatile and qualified actress for the part of Mrs. Ethel Savage in the College-Community Theatre production "The Curious Savage" to be performed November 5, 6, and 7, at the Hartnell Little Theatre.

The "Curious Savage," a three act production done in five scenes, s a story about a mother who is confined to a sanitorium by her own children because they fear she is mentally incapacitated and unable to handle the family fortune of 10 million dollars accumulated by her late husband. The play deals with the attempts of her three children, Senator Titus Savage, played by Christopher Christ, Lily Belle Savage played by Beverly San Martino, and Judge Samuel Savage by Eugene Morga, to locate the money.

The trials and tribulations are further complexed by several inmates at the sanitorium under the personage of Fairy May played by Mary Ann Baldwin, Florence played by Elizabeth Snow, Mrs. Paddy played by Lenora Shook, Hannibal played by Ray Wilson, and Jeffry played by Dave McKeel.

The other supporting roles are handled by Mrs. Helyn Spotts, as Dr. Emmett, and Miss Carmelita McAmis as nurse in charge.

Tickets for the production are priced at fifty cents for students and children and $1.00 for adults, according to Mr. Ulrici.

THE EDITOR'S VIEWS

By DARRELL RAINS

We regret to announce that due to production difficulties The Panther Sentinel will be reduced from a four-page edition to a single sheet from time to time. There are several reasons for this change. The Panther budget allows for 26 issues each school year, making it necessary to skip a week here and there. Another big reason is the shortage of experienced reporters. This is being licked as the result of cooperation shown by the students volunteering for extracurricular work on the paper. We appreciate their interest and know they will improve and be a big help to us.

El Camino Press, which prints the paper, has been cooperative in letting some material come in late, but this cannot keep up because it increases printing costs. Every attempt will be made to get out a paper weekly during the football season, and as our staff improves.

* * * * *

The Hartnell College sign is still gone from the corner of Homestead Avenue and Alisal Street. This sign was the property, not of the students of the college, but of the college district, and its removal seems to us to be out of place as a pregame prank inspired by intercollege rivalry. It is our belief that only trouble can come from such actions, and we think it is to Hartnell's credit that no such thing has been done to any of our rivals.

* * * * *

The Hartnell Alumni Association is selling magazine subscriptions again this year in an effort to earn the money for their year-around activities. Any student or alumnus who wishes to give magazine subscriptions for Christmas can solve that problem and help out the Alumni Association both, by buying the subscriptions through the alumni. All subscriptions sold by the Association result in a percentage of the price being paid into the Association's treasury. This adds to the alumni funds at no extra cost to the subscriber.

* * * * *

Note to all Hartnell Clubs: If you would like to see news of your club activities printed in The Panther Sentinel, please appoint one of your club members to be responsible for letting us know what your club is doing. We try to send reporters around to find out all the particulars of the activities we hear about, but sometimes we hear about them too late or the reporter is unable to find a club members who knows enough about it.

All the press agent would have to do would be to find out all the facts about the club activities and write them down on one of the press release information cards available in Room 9. It's up to you clubs, so please don't let us down.

Colhecon Will Hold Potluck

The Colhecon Club will hold a combination Pot Luck Supper and Installation in the Home Ec living room 35, for new members and officers Tuesday, November 3rd.

The committee chairmen for the evening are: Linda Robbins, decorations; Linda Lawrence, cleanup; and Sally Lipsett, food.

The Hartnell scrapbook, started by Marty Fourcade last year, is still on display in the library.

DID YOU KNOW . . .

By RICK OLIVER

. . . that Delores Dickison won 33⅓ gallons of gas simply by guessing the Homecoming game score?

. . . **that a local store has the newest fad in women's fashion, flary felt skirts?**

. . . that Ken Daugherty has taken over a Junior H-Y group as its leader?

. . . **that if anyone has anything to contribute to this column, please contact the writer.**

. . . that the journalism room is becoming modernized. A telephone has been installed.

. . . **that all students who have not paid for their student body cards are to contact Ted Lang immediately.**

. . . that Bill Thompson's Garage is offering a discount on gas and tires to Hartnell student card holders?

. . . **what The Panther Sentinel has just acquired? WRITERS! Their names are Louise Snipes, Dave Madina, and Tom Alderson.**

. . . there was no flag displayed when the Star Spangled Banner was being played at our home games?

. . . **that Shirley Sherman was the chairman of the coronation? She had as her helpers Cleo Strong, Eleanor Evans, Barbara Houston, Angie Hernandez, Eugene Norga, Mary Norga, Dick Eppley, and Mr. Ulrici who was the advisor.**

. . . that the Vogue Theater offers the student body card holder of Hartnell a reduction in price when shown at the wicket?

. . . **that Virgil Herring, a dealer in rocks and lapidary, is participating in the annual show sponsored by the Santa Cruz Gem and Mineral Society this week end. This display will be held in Santa Cruz.**

. . . that Hartnell has one of the finest dark rooms out of all the junior colleges in California?

. . . **that the spirit of this institution reminds me of the Hartnell sign? Man, it's NOWHERE!**

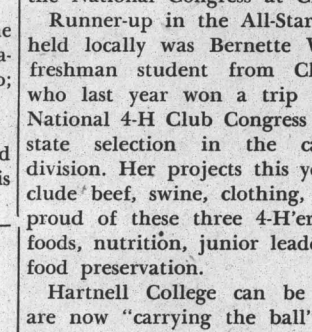

Hartnell Girls Win 4-H Honors

Three Hartnell college girls have made the 4-H headlines within the past week, according to an announcement by Robert E. Plaister, farm advisor in charge of 4-H work.

Norman F. Juhler, Hartnell freshman and member of the San Benancio 4-H Club, will represent California at the National 4-H Club Congress in Chicago, November 29 to December 3, having won top honors in a state-wide 4-H leadership award program. In addition to her leadership activities, she has been outstanding in both agricultural and home economics projects. This year she has 50 head of sheep, made four garments, canned 49 quarts of food, frozen 544 pounds, prepared almost 100 meals, raised 50 chickens, carried on a junior leader project and reised a Guide Dog for the blind. Norma's trip to the 4-H Club Congress will be provided by the Bank of America.

Monterey County All-Star for 1953 was the title bestowed upon Kathleen Hayes, second-year student who hails from Watsonville. She was selected by a panel of judges at a luncheon held at the Jeffery hotel on Saturday, October 24th, and will compete for Diamond Star and a trip to Washington, D.C. for the National 4-H Club Camp. In 1952, Kathy's entry was selected over those of contestants from all over the state as meat animal winner and participated in the National Congress at Chicago.

Runner-up in the All-Star event held locally was Bernette Wimer, freshman student from Chualar, who last year won a trip to the National 4-H Club Congress at the state selection in the canning division. Her projects this year include beef, swine, clothing, frozen foods, nutrition, junior leader and food preservation.

proud of these three 4-H'ers who

Hartnell College can be justly are now "carrying the ball" from the Junior Rose Bowl to the National 4-H Club Congress in Chicago.

Coin Machine Policy Stated

The present coin machine policy, which has been in effect since last year has been clarified for the students by the Commissioner of Finance, Irwin Forbes.

Irwin stated that the policy was established to provide a small income to a deserving student here at college. His job is to replace older records with recent hits and keep the machine in good working condition.

The money from the machine is divided three ways, forty percent going to the machine operator, twenty percent for new records and machine maintenance, and the remaining forty percent for the Student Body income account, where the money will be used to finance or help support other activities of the Student Body.

Student Views

I wonder how many of us ever stop to think about the tremendous amount of work that goes into the publishing of a fine yearbook like our La Reata? I imagine that it's just one of those things that nobody thinks very much about. We should think about it, however, because it concerns all of us, and because it does entail a terrific amount of work.

This work is being done by co-editors Karol Klaur and Doris Simon and the rest of their fine staff: Betty Houston, faculty editor, Barbara Houston, activities director, Don Eckerson, Sophomore class editor, Johnny Mazzucotelli, Freshman editor, Tony Lamigao, organizational editor, Richard Adams, sports editor, Tom Alderson, Jim Jacobson, Virgil Herring, Gerald Little, and Aubrey Vickers, all photographers. They deserve a vote of thanks for their fine work. Let's get behind them one hundred percent and help them maintain their present high standard of work.

—J. M.

* * *

Not that we want to count our chickens before they're hatched but what is all this talk about a playoff being held at Bakersfield? Seems to ıe the jaysee football experts would be a lot smarter to hold the playoff in the north, if one is necessary, and let the big Junior Rose Bowl remain in the south.

If Hartnell is a candidate for any Rose Bowl, and there is a playoff, the only place they should hold it would be in Salinas. Seems to me someone is missing the boat by not insisting the playoff be held in the north to build additional interest . . . a playoff in Salinas would do a lot toward building Hartnell, if we are fortunate to be invited, and would mean no additional travel expenses etc. for the northern school. This is just thinking wishfully I guess.

—D. R.

Dance Club To Add Activities

Lila Ebell has been elected president of the newly formed Noon Dance Club, a club created to further the noon-time activities at the college.

Lila said that she had talked to several persons in the band, and stated that an orchestra will be formed to play at the dances. The idea of having a dance club was originated by Lila and Jackie Phillips. The first meeting was attended by about fifty students, who were quite enthusiastic about the idea.

Membership to the new club is open to any student at Hartnell college interested in dancing or who wants to learn how to dance.

Discounts Offered

All Hartnell students who have student body cards are entitled to discounts at two local places in Salinas.

These include "Bill' Thompson's Richfield Service Station located on John Street who gives a two percent discount on gas and tires. The other place is the Vogue Theatre, where they will let you in on student prices.

Little Rose Bowl Film Still Used

Hartnell's colored film of last year's Little Rose Bowl football game is still being exhibited extensively.

The film has been shown at Redland's University, on KSBW's television channel 8, to the Soledad Chamber of Commerce, to the Spreckels Sugar Company employees, to the Hollister American Legion group, to several groups in Gonzales and Gilroy, and at all of the local and neighboring high schools. The film's longest trip was to Honolulu, Hawaii, where it was shown last May.

The latest showing of the film was at the Hartnell Homecoming Day celebration.

Colhecon Served Tea To Alumni

The Colhecon Club, under the advisorship of Miss Schmidt, took charge of serving the sandwiches and cookies at the Homecoming afternoon tea.

According to Colhecon members, the tea which served about 300 alumni between the hours of 1 and 4 p.m. was a great success.

Sue Crawford, chairman in charge of serving the punch, also took charge of the cookies brought by other club members. The hostess at the tea were Linda Lawrence, Nancy Carr, and Linda Robbins. Frances Jew was in charge of serving, and Alice Chattick headed the cleanup committee.

Home Ec Class Learns Sewing

In the home economic department the Food's Class is now working on breakfast with a detailed time schedule. With emphasis placed on cost, attractiveness, interest, tastiness, and table setting the students are working on breakfast that can be prepared within 15, 20 and 30 minutes.

The clothing class is starting their second project which is a blouse or shirt. They are following the new fall style of mannish shirts using a variety of materials mostly gay plaids, strips, and prints done in cotton. Emphasis is placed on tailoring the set-in-sleeves and collars. The best neck line was determined for each girl as well as the best color. These blouses are made to go with the skirts the students have just completed, to make an entire outfit.

Know Your Social Security

(The First of Three Articles)
By J. R. INGRAM

Know what a social security card looks like? Not much to it — a simple little blue and white thing with a name and a long number on it. But it so happens that one of those little cards might be worth about $40,000 to you.

Interested? You should be, whether you're young or old, rich or poor, married or single. You pay for social security, you and your employer, with hard earned dollars. Those dollars buy you certain rights, just as they would if paid to a private insurance company. **Its up to you to understand these rights, fit them to your plans, take advantage of them.**

PROTECTS YOU

You and your family may never collect the whole $40,000, for that is close to the maximum that one family could clear from social security. But whether or not you ever collect a red cent, it protects your family and your future as long as you maintain your eligibility. For most people that protection is beyond any dollars and cents valuation.

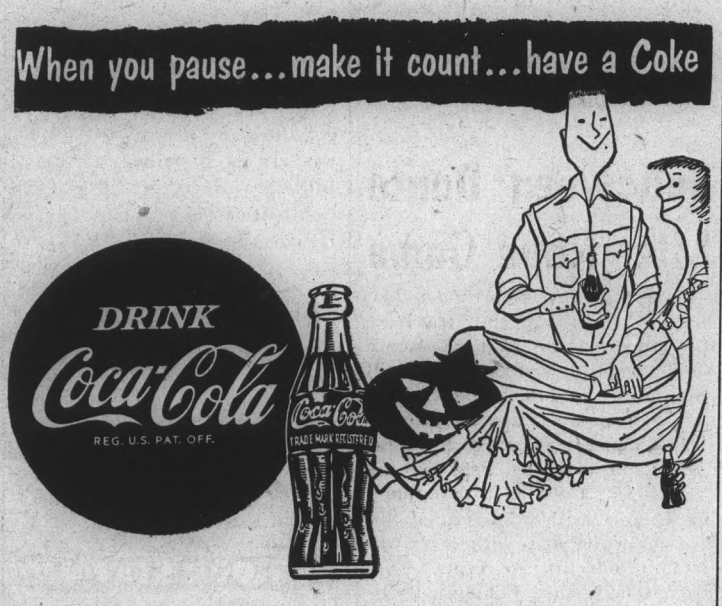

WIDE COVERAGE

The first social security law was passed 15 years ago, but the upsiedaisy Congress gave the system in the summer of '50 amounts almost to a new start. **From now on three out of every four Americans who work for pay, and their families, will be covered.** From now on benefits will be large enough to rank as significant factors in the financial plan of every covered individual.

Now is the time to learn about your social secutity. In our next issue, we shall take up the question of coverage.

Hartnell College has run up a total of 193 points in five games this season. Their opponents have scored only 20. Riverside College scored all of the 20 points against the Hartnell second and third strings.

Korean Student Speaks Before Friday Assembly

Mr. Harkjoon Paik, a sixteen year old Korean student, gave a speech last Friday at the 8 a.m. assembly, and held a discussion for the Hartnell students on "A Review of Life in Korea." His speech was in observance of United Nations Week on the campus.

Mr. Paik was sponsored by the Salinas "United Nations Week" committee. Harkjoon, who was born in Korea, was fourteen years old when the North Korean Communists attacked his country. His father was a doctor and operated his own hospital. They saw the hospital burned down to the ground. Harkjoon said that was one of the most horrible things he had ever seen.

His speech stressed great importance of national security. He felt strongly that the Korean nation can never attain that security until the goal of a unified Korea, not a North Korea and South Korea, is achieved. Mr. Paik stated that his country was now free only as far as the 38th paralel.

At the present time Harkjoon is attending the Monterey Union High School. He intends to continue his studies and go on to a college or University. He already has a $1,500 scholarship for any school he wishes to attend.

Dom. Racuya Is International Student Here

Dominador Racuya of Honolulu, Hawaii, is one of the international students attending Hartnell. He is of Philippine descent, but is a U.S. citizen.

In 1948, he joined the American Army in Honolulu and was immediately sent to Fort Ord, California. From there he was stationed in various other states. He was attached to the Special Service, which was in the Aircraft Artillery. Dominador received his discharge papers in 1952.

While at Fort Ord, he met Benjamin Capanas, former president of the Hawaiian Club, who got him interested in Hartnell.

By the time of his discharge he had decided to take up Aircraft Mechanics, so he came to Hartnell.

Dominador is now living in Salinas and is a freshman at Hartnell. He is very active in the International Club and Hawaiian Club.

On graduating from Hartnell, he hopes to return to Hawaii.

NOTICE

Will all clubs PLEASE appoint a press representative to let us know what's going on at your meetings. We can't possibly send a reporter to each club meeting, so when any club has any activity that it would like publicized, it should send someone to room nine to fill out a press release information card.

ANNY IN THE CAFETERIA

By ANN NONYMOUS

The Hartnell Cafeteria is a marvelous place to eat. The food is "cheep," and you get to watch all the strange people eating in there, and listen to them talk.

I like to just sit and listen to what the people say. Sometimes I get so interested I forget to eat. All you have to do to catch up on the latest gossip is to eat in the cafeteria . . . everyone talks so loud you can hear them — even over the sounds of chomping and gurgling. At least you can when I stop eating.

I like to listen to the juke-box, too. The songs, at least Joan Dolan calls them songs, they play on it are so funny. I've heard the story of "Little Blue Riding Hood" somewhere before, but I can't remember where it was. Maybe it was at the Kefauver investigation.

I've learned a lot from the cafeteria crew since I've been eating in there. I was surprised to see some old milk bottles sitting over in the corner one day, it was the first cow's nest I'd ever seen.

Everybody that eats in the cafeteria is so friendly. Somebody even offered me a drink one day. Turned out it tasted just like water. Maybe it was only water. I've always been shy, but the people talk to me as though I were their equal. Just the other day somebody said "Get your books off this counter, stupid."

The Cafeteria is one of the two rooms in the buildings in which you are allowed to smoke. In fact it's one in which you can't help but inhale the smoke. The lounge is the other room in which you can smoke, but it's even thicker in there. However, it isn't so thick that a good seeing eye dog would get lost, I didn't.

In case the cafeteria is cluttered up with "chow hounds", I sometimes eat in the lounge. You are allowed to eat in there now if you want to. I read in the paper that you have to eat off one of the tables but I usually take in a plate to use.

Eating in the lounge has its disadvantages. The television set is in there, and if you don't watch yourself you'll end up watching TV and not knowing what you're eating. One day when Jimmy Boy Crain turned on the TV, I ate half of my English book before I realized it. The only difference between the book and a ham sandwicch was that the English book was a little dryer and much harder to digest.

It's amazing how many students can be found in the lounge. Some of them seem to spend most of their time playing cards. I'd spend more of my time watching TV, but every time I start in I run into somebody who asks me if I got my homework done in this or that subject. They make me feel ashamed that I haven't done it, so I go back into the Library and go to work. I have to work in the library so I won't disturb the TV viewers.

To get back to the cafeteria, (don't laugh, can you think of a better place to go? All right then, GO!) you may not know it, but some of our very own Hartnell students work in there. I mean REAL work, not homework. They wash dishes and clean up. Virgil Herring works there, and Charles Olsen, and Jim Crain.

They must work very hard, because the room is always very clean. I guess you could eat off the floor, but everyone would laugh at you if you did. At least they laughed at me.

I asked General Freyer if I could work there, but she just ignored me like I wasn't even there. Maybe it's because I'm not in the army. I don't know about those other people.

Jaysee Hi-Lites

Stockton College's new $414,940.66 library building, financed from the 1951 $8 million bond issue, was dedicated Monday, October 12.

The main reading room of the library was the setting of the dedication. Following the ceremonies, tours of the building were conducted.

Making its first appearance of the season was the SC Orchestra, under the direction of Lucas Underwood. Rev. Noel Breed, of the First Congregational Church gave the Invocation, and Rabbi William Sajowitz, of Temple Isreal offered the Benediction.

* * *

A grove of taxodiaceae sequoia sempervirens (short for botanical spermotophyte gymnosperm taxodiaceiae sequoia sempervirens, long, too long, for the common redwood) has been found on the Menlo campus! This startling discovery has been made by the Freshman science class on one of its recent scientific expeditions into the wilds of Menlo.

* * *

Lee Beddow, poultry major at Cal Poly, recently hitch hiked to Detroit Michigan. What's so unusual about that? Lots of people have hitch-hiked the same distance or further.

The answer: Lee is blind. And this is his fourth trip across the country.

Lee left San Luis Obispo, July 23, traveling first to Phoenix to visit relatives, then continuing to Flagstaff, where he visited the ancient Zuni cave dwellings. He enjoyed the cave dwellings greatly through the mental pictures that he got "by just being there in the dwellings," and through the guide's lecture.

Lee continued his trip eastward across the country by route 66, never being lost at any time. He found that most people he met were very cooperative but he had a hard time convincing them that he was blind. He stated the reason most people picked him up was because they wanted someone to help with the driving or just to have someone to talk to. Lee took every ride that came along because of his interest in people.

Most people couldn't understand his hiking across the country by himself. Only once on the entire trip did he encounter, as Lee puts it, "an uncomfortable experience." That was the time a drunk picked him up and he spent the entire time thinking of a way to get out of the car.

Hartnell Panthers Beat Vikings 53-0

Voris Seeks 19th Win Tonight

Hartnell College's gridiron monster doesn't have to dress up for Halloween this week to scare its remaining five opponents. All the unbeaten Panthers have to do is publicize their fabulous statistical record for the first five games this season.

Tony Teresa, the split-T quarterback with the ball han-dling wizardry, is the leading Hartnell terror. And he hopes to add to his phenomenal record Friday night, October 30, when the locals play host to Napa junior college in Salinas. Teresa has attempted 62 passes, completed 36 for 739 yards, nine touchdowns and a 58 percent pitching average. The sophomore grid great completed eight out of ten aerials for three scores against previously unbeaten East Contra Costa Saturday night in the Panther's 53-0 rout of the Vikings at Pittsburg.

The jaycee quarterback is just as dangerous on the ground. He leads the Hartnell ground gainers in rushing average with 7.5 per carry, and is third in team scoring with 21 points.

Clive Bullian will be the other "big gun" in the Panther backfield against Napa this Friday night. He has netted 375 yards on 60 carries for 6.3 average and leads the team in scoring with 52 markers, the second best total in the Far West.

The big Hartnell line, anchored by such all-conference jaycee stars as Dick Herman and Jim Brandon, guards; Jerry Ledin, tackle; John Perkins, center; and Jim Crain, end, has held the opposition to only two touchdowns through the line in five games **This bulwark of strength has allowed five opponents to net only 414 yards from scrimmage for a 2.8 average per carry, according to Head Coach Dick Voris.**

The team as a whole has racked up 193 points while holding their foes to a 20 point total, all garnered against a reserve contingent. Last season in ten regular season contests the Panthers only racked up 260 markers, a figure which is sure to be shattered if power laden Hartnell continues at the present pace.

Homecoming Game Victory

The Menlo-Hartnell Homecoming tilt played October 17, in the local stadium, proved to be another demonstration of the Hartnell Panther's great power. The Panthers, coached by Dick Voris rolled over the Menlo Oaks by an overwhelming score of 32-0.

Again the fans saw the smooth ball handling of quarterback Tony Teresa, and the great running ability of halfback Clive Bullian. Tom Kyle, Wes McWilliams, Reggie Kenyon, Jim Crain, and Tony Teresa went into the end-zone for touchdowns in this clash.

The varsity line played outstanding on offense and defense throughout the game, according to Head Coach Dick Voris.

The Gassers team is composed of Jim Hitchcock, captain; Bob Dunn, Lew Kulper, Art Sauer, Tom Klingensmith, Irvine Armstrong, and Charley Collins.

In team standings the Beachcombers are in the lead with four wins and no losses, as of October 23.

Bullis Took Trip To San Jose State Engineer Bldg.

Mr. W. R. Bullis, Hartnell engineering instructor, recently made an inspection trip through the new San Jose State College engineering building during his attendance at a meeting of the American Electrical Engineers, of which he is a member.

Information gained by Mr. Bullis will be passed along to all Hartnell students interested in the field of engineering and planning to go on to another engineering college in California after graduation from Hartnell.

Mr. Bullis learned that the University of California is cooperating closely with San Jose State and three other California colleges in the training of engineers. The University of California is emphasizing its training in the field of research, design, and development, while the other colleges are emphasizing construction, production, operation, maintenance, application, industrial, and management engineering.

At present San Jose State has 478 students enrolled in the four-year engineering school. The building itself cost nearly a million dollars, and the extensive equipment cost about one-quarter million.

Halloween Dance After Napa Game

Using the Halloween theme, The Black Cat Crawl, and featuring the music of the Panther Dance Band the fifth school dance will get under way Friday night, October 30, after the Napa encounter.

The dance, sponsored by Newman Club, will be held in the Men's gym. Couples with student body cards will be admitted for 50 cents while stags with cards will be admitted for 75 cents. Non-student body card holders will be charget 75 cents for couples and $1.00 for stags.

Committee chairman for the dance are August Schmidt, music; Eugene Morga, publicity; Mary Griffin, Winkie Gularte, and Dave Brazell, decorations.

WHO GUESSED THE SCORE LAST WEEK?

Crystal Balls must have been on the blink last week — nobody guessed the score. No wonder with a score like that! But this week's game should be a cinch — drive in for your Regal Contest Score Card today!

DON'T FORGET to enter this week's FOOTBALL SCORE-GUESSING CONTEST!

Hartnell Score ____ ?
Napa Score ____ ?

Test your skill as a football prophet! Get free Contest Score Card each week at your Regal Station. Guess the score and deposit card up to one hour before game time. ONE winner gets the entire 100 gallons. TWO winners get 50 gallons each, etc. But all winners get 10 gallons no matter how many guess right!

FINEST GASOLINE FOR LESS!
